## **Key Digital Announces Compass Control Pro Partner Alliance with OpenEye IP Cameras**

**MOUNT VERNON, NY – January 29, 2018**—Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that OpenEye IP Cameras are now compatible with the Compass Control System, the first fully integrated major control system built from the ground up.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with OpenEye IP Cameras. These products and profiles are rigorously tested by Key Digital. The OpenEye IP Cameras driver will allow for live stream from all OpenEye IP cameras, playback control, and audio available depending on the device model.

Compass Control® users will be able to use their OpenEye IP Cameras with their Compass Control® app. OpenEye IP cameras provide high resolution images for indoor and outdoor use. OpenEye has a wide varied of IP cameras to meet just about every need, with features varying from: power over Ethernet, 2MP, 3MP, and 5MP resolution, IP66 rating, auto focus lens, streaming capabilities, and many more. They provide a high quality line of IP cameras for any security installs.

*“Resulting from cooperative efforts between Key Digital and OpenEye, the integration of OpenEye IP Cameras represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s Vice-President of Sales, Michael Lakhter. “The Compass Alliance™ Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.*

### **About Key Digital®**

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants,

designers, and installation firms of the A/V industry. Key Digital<sup>®</sup> is known to deliver best-in-class products based on quality, performance, and reliability.
