

Rane HAL Series Module Now Available on the Compass Control®

Rane HAL Series DSPs are now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and pre-configured GUI template for their Compass Control® system to interface with Rane HAL Series DSPs. Compass Control® users can use the Rane HAL Series with just a touch of a button. The Rane HAL Series driver will allow for Bi-Directional Communication over IP and control of Levels, Toggles, Selectors, and Commands. It is an all-in-one control module: simply add the IP address and it is ready for control – no extra set up required. All while having access to a fully integrated control system with additional video, lighting, climate, security, and automation controls.

Module Features:

- › Bi-Directional Communication over IP
- › Control of Levels, Toggles, Selectors, and Commands
- › All in one IP control module
