Key Digital Announces Compass Control Pro Partner Alliance with AMC

MOUNT VERNON, NY – October 20, 2017– Key Digital, the Leaders in Digital Video and control systems, announces an exciting alliance with AMC. Key Digital is an award winning (CES, CEDIA, InfoComm, NAHB) developer and manufacturer of leading-edge technology for HDTV applications, has announced that AMC X86i, XOi, and XG are now compatible with the Compass Control System, the first fully integrated major control system built from the ground up to use Apple's iOS devices – iPad®, iPad mini®, iPhone®, and iPod touch® – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with the AMC X86i, XOi, and XG. These products and profiles are rigorously tested by Key Digital. The AMC X86i and XOi drivers allow for multi-zone audio system, control over RS232 with bidirectional driver, audio switching control zone control, volume control, EQ control. The XG driver will allow for 16 channel power audio amplifiers, RS control for unit power, check state of unit, and reboot/reset unit using driver.

Compass Control® users will be able to use their AMC X86i, XOi, and XG with their Compass Control® app. AMC™ has made every effort to develop, design, and manufacture Gene IIoT information appliance components that not only offer performance but complete solutions. Solutions that offer no built in obsolescence but Gene IIoT IA components that become a tool to a wonderful place of entertainment and enjoyment for you and your family, office, mobile and marine.

“Resulting from cooperative efforts between Key Digital and AMC, the integration of its mode X86i, XOi, and XG within the Compass Control environment represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s COO, Michael Lakhter. “The Compass Alliance Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.

About Key Digital®

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
