Key Digital Announces Compass Control Pro Partner Alliance with Bose

MOUNT VERNON, NY – October 20, 2017–. Key Digital, an award winning (CES, CEDIA, InfoComm, NAHB) developer and manufacturer of leading-edge technology for HDTV applications, has announced that Bose SoundTouch™ are now compatible with the Compass Control System, the first fully integrated major control system built from the ground up to use Apple's iOS devices – iPad®, iPad mini®, iPhone®, and iPod touch® – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with Bose SoundTouch™. These products and profiles are rigorously tested by Key Digital. The Bose SoundTouch™ driver will allow for IP control, audio controls as well as Bose control, now playing information and media art is available, select music from the six Bose programmable presets, and Compass Control module is available.

Compass Control® users will be able to flawlessly use their Bose SoundTouch™ with their Compass Control® app. Compass Control® is compatible with all SoundTouch™ music systems: SoundTouch™ 30 Series II system, SoundTouch™ 20 Series II system, and SoundTouch™ Portable Series II system. Bose SoundTouch™ brings an entirely new way to stream music wirelessly around your home. It will connect directly to your favorite Internet stations and streaming music applications like Pandora®, Deezer, iHeartRadio and Spotify®. The system is built for multi-room audio; you will be able to listen to music throughout your home when connecting SoundTouch™ systems.

“Resulting from cooperative efforts between Key Digital and Bose, the integration of its SoundTouch™ within the Compass Control environment represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s COO, Michael Lakhter. “The Compass Alliance Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.

About Key Digital®

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
