

# Global Cache iTach

## Read Me

### **Setup Controllers:**

Global Cache is integrated in Compass Navigator. The module, driver, and library will be imported. Please go to "Setup Controllers" Tab and jump down to Add Master Controllers. There will be a list of devices that are available to use. Global Cache devices are treated as a Master Controller in Compass Navigator.

Please refer to [GlobalCache\\_iTach\\_Manual.pdf](#) for importing Global Cache devices into Compass Navigator.

### **Control:**
