# Key Digital: Lite Switchers

## Module Setup

### **About:**

Key Digital HDMI Lite Matrix Switchers are designed and engineered to offer the best in quality, performance, and reliability, while providing cost effective HDMI matrix solutions. An 8 Input to 8 Output HDBaseT/HDMI via Single CAT5e/6 Matrix Switcher, with built-in Compass Control, supports Ultra HD/4K. Also has a built in master controller to easily be integrated in a Compass Control system.

### **Setup Communication:**

Key Digital Lite switchers are controlled over IP on Port 23. In Compass Navigator, please insert IP Address under Device Properties.

They can also be controlled via RS-232.

### **Setup in Compass Navigator:**

Each module contains inputs and outputs that can be customized. In Zone Construction, please drag and drop the sources and outputs, accordingly as they are found on the back of the switcher, to the inputs and outputs of the HD switch device tree.

Properly setting up the Zone Construction will allow for auto-switching when choosing a device in a modular project.

### **Setup Complete:**

Upload and update project for use.

### **Control:**

Compass Control offers

- Bi-Directional Control
  - HDMI Matrix Switching
  - Bi-Directional IR/RS232 control signal extension
- Up to 33 ports for IR and RS232 control
- IR Routing
