Russound MCA-C5 Module Setup

About:

The MCA-C5 Multi-zone Controller Amplifier provides eight zones of distributed stereo audio from any of eight sources. The source loop outputs and the addition of up to five additional controllers allow for scalability to 48 zones.

Setup Communication:

Russound is controlled over IP on Port 9621. In Compass Navigator, please insert IP Address under Device Properties. Please note that Russound requires only 1 module for control of up to 6 controllers chained together.

Setup in Russound SCS-C5 Software:

Compass Control will auto-populate your Russound Rooms, Sources, and Source Controls. In order to do so, please setup all source names, source types, and room names in the SCS-C5 Software before first use.

Setup Complete:

Upload and update project for use.

Control:

Compass Control offers

- IR Control
 - Devices Programmed in SCS-C5 Software
- Audio Control
 - Volume
