

# Russound® CAA66 Module Now Available on the Compass Control®

Russound® CAA66 Controller Amplifier is now compatible with the Compass Control® Pro system, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® Pro system to interface with Russound® CAA66 Controller Amplifier. Compass Control® Pro system gives Russound CAA66 Controller Amplifier users full control of the multi-room digital audio streaming audio system, while having an integrated control system with additional video, lighting, climate, security, and automation controls.

## Module Features:

- › Supports CAA,CAV,CAM,CAS Russound Controllers
- › Bi-Directional Driver over RS232
- › Media Source Controls
- › Zone Control
- › EQ Controls
