## **Key Digital Announces Compass Control Pro Partner Alliance with Vantage Controls Infusion 36V Home Automation Controller**

**MOUNT VERNON, NY – February 12, 2018–** Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that Vantage Controls Infusion 36V Controller is now compatible with the Compass Control System, the first fully integrated major control system built from the ground up.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with the Vantage Controls Infusion 36V Controller. These products and profiles are rigorously tested by Key Digital. The Vantage Controls Infusion 36V Controller driver will allow for bi-directional control of lighting/loads as well as motors and thermostats and IP control.

Compass Control® users will be able to use their Vantage Controls Infusion 36V Controller with their Compass Control® app. The Vantage Controls Infusion 36V Controller uses an Intel XScale Processor is one of the most powerful home system controller's available. The product features a fast processor and large memory capacity which provides delay free control of large complex systems. One InFusion Controller can support up to 120 WireLink stations and up to 120 RadioLink stations. Controllers can easily network to expand the system further. Five RS-232 ports provide easy device connectivity while an ethernet connection supports IP full connectivity.

*“Resulting from cooperative efforts between Key Digital and Vantage Controls, the integration of the Vantage Controls Infusion 36V Home Automation Controller represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s COO, Michael Lakhter. “The Compass Alliance™ Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded..*

### **About Key Digital®**

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
