## **Key Digital Announces Compass Control Pro Partner Alliance with WolfVision VZ-8 Plus**

**MOUNT VERNON, NY – February 12, 2018–** Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that WolfVision VZ-8 Plus is now compatible with the Compass Control System, the first fully integrated major control system built from the ground up.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with WolfVision VZ-8 Plus. These products and profiles are rigorously tested by Key Digital. The WolfVision VZ-8 Plus driver will allow for IP control of visualizer, zoom and focus control, preset controls, and on screen control.

Compass Control® users will be able to use their WolfVision VZ-8 Plus with their Compass Control® app. WolfVision's popular VZ-8 Series Visualizer systems have become a worldwide standard in a large number of universities, schools and enterprises in recent years. The latest fourth generation VZ-8 Series units build on this outstanding success, they come with an elegant redesigned housing, feature a superb native 1080p HD camera, and are equipped with WolfVision's new YSOP1 image processing engine.

*“Resulting from cooperative efforts between Key Digital and WolfVision, the integration of the WolfVision VZ-8 Plus represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s COO, Michael Lakhter. “The Compass Alliance™ Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded..*

### **About Key Digital®**

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants,

designers, and installation firms of the A/V industry. Key Digital<sup>®</sup> is known to deliver best-in-class products based on quality, performance, and reliability.
