

Discover The Possibilities™

Ashly Protea

Module Setup

About:

Ashly provides DSP Processors perfect for any audio setup.

Setup Communication:

The Protea is controlled over RS-232.

Setup in Compass Navigator:

One module is required per Ashly Unit. In Zone Construction, please add the Protea module and place it in an Audio Zone. Once placed head over to Controlling Flow and place the Protea module in the correct RS-232 port on the Master Controller.

Setup Complete:

Upload and update project for use.

Control:

Compass Control offers

- Bi-Directional Control
 - Mixing
 - Volume Control
 - Zone Control
