

# Bose SoundTouch

## Module Setup

### About:

SoundTouch is a wireless music system that allows you to control all your music effortlessly from anywhere in your home. All you need is one or more SoundTouch speaker.

### Setup Communication:

SoundTouch is controlled over IP on Port 8090. In Compass Navigator, please insert IP Address under Device Properties. Please note that each SoundTouch Player requires its own module.

### Setup in Bose App:

Compass Control will auto-populate your SoundTouch Presets. Please continue setup in the Bose SoundTouch App.

- To play streaming content, set any radio station from Pandora, iHeartRadio, TuneIn and many others as a SoundTouch Preset by holding your finger down on a preset number while the streaming content is playing.

### Setup Complete:

Upload and update project for use.
