

VidaBox and DuneHD

Custom Project Setup

About:

VidaBox and DuneHD join forces to provide an all-in-one experience as a powerhouse entertainment system. Store movies on the VidaBox LiivNAS Server and watch them on Dune's Smart Blu-ray Players.

Setup Communication:

VidaBox LiivNAS servers are controlled over HTTP request on port 51414.

DuneHD boxes are also equipped with network capabilities. These boxes are controlled over TCP/IP on port 80.

Setup in Compass Navigator:

With the provided custom project containing VidaBox and Dune, please insert the IP Address of the VidaBox and Dune. Please feel free to work around this project as a template for Control

Setup Complete:

Upload and update project for use.

Control:

Compass Control offers

- Media Player Controls
 - Playback Control from Dune
 - Browse Titles from VidaBox
